

## Statement of Peer review

In submitting conference proceedings to KnE publishing, the conference editors confirm the following:

- They adhere to Knowledge E Policy on Publication Ethics and Publication Malpractice Statement
- All submitted conference papers have passed a peer review process conducted by the Chief Academic Editor of the conference
- Please provide a description of your conference peer review process, type (single-blind, double-blind, etc.), and state the total number of peer reviewers:

Every article that goes to the editorial staff will be selected through Initial Review processes by Editorial Board. Then, the articles will be sent to the Peer- Reviewer (two peer-reviewers for one article) and will go to the next selection by Peer-Review Process. After that, the articles will be returned to the authors to revise. If one of the peer-reviewer suggests rejecting the article, that article will be sent and reviewed by the third peer-reviewer. But, if all the peer-reviewers suggest rejecting the article, the editorial team will reject it as well.

For each manuscript, peer reviewer will be rated from the substantial and technical aspects. All the Peer-reviewers are the experts in the Basic sciences and its applications area and issues around it. They were experienced in the prestigious journal management and publication that was spread around the national and abroad.

The type of peer review process is **double-blind** with **40 peer reviewers** involved.

- All the editors have taken all mandatory steps to ensure the quality of the manuscripts they publish, and their decision to accept or reject a manuscript for publication has been based only on the quality of the produced work.

Date and place: 23-24 August 2018, Grand Inna Padang Hotel and Convention Center, Padang, West Sumatera, Indonesia

Chief Academic Editor Name: Diana Vanda Wellia

Signature:

---

## Knowledge E Publication Ethics and Publication Malpractice Statement

Knowledge E makes every effort to ensure high quality scholarship in all published articles and conference papers on the KnE Publishing Platform. The platform exists in order to share best practices and accelerate the advance of academic research from regions all over the world. In order to achieve this goal, we need to instill confidence in our readers.

### Peer Review

Each conference whose content is published on the KnE Publishing Platform has undergone academic peer review prior to submission. Knowledge E checks each submitted paper against a set of criteria to ensure adherence to aims & scope, prevent ethical or legal concerns before agreeing to publish.

### Plagiarism

Knowledge E verifies the originality of every submitted conference paper submitted using Similarity Check <https://www.crossref.org/services/similarity-check/> (powered by iThenticate) to check submissions against previous publications. There is no strict limit or proportion of plagiarized content acceptable however, in cases where manuscripts are submitted for publishing on the KnE Publishing Platform in which the Similarity Check detects more than 20% similarity then Knowledge E editorial staff ask the academic editor for an explanation and a suitable solution is found. The solution is usually either a re-submission or removal of the paper.

### Committee on Publication Ethics (COPE)

Knowledge E adheres the policies of the Committee on Publication Ethics (COPE, <https://publicationethics.org/>), which is a charity registered in the UK. It is concerned with the integrity of peer-reviewed publications in science, particularly biomedicine.

# International Committee of Medical Journal Editors (ICMJE)

Where relevant, Knowledge E adheres to the policies of the International Committee of Medical Journal Editors (ICMJE), including those that cover overlapping publications.
