

Statement of Peer review

In submitting conference proceedings to KnE publishing, the conference editors confirm the following:

- They adhere to Knowledge E Policy on Publication Ethics and Publication Malpractice Statement
- All submitted conference papers have passed a peer review process conducted by the Chief Academic Editor of the conference
- Please provide a description of your conference peer review process, type (single-blind, double-blind, etc.), and state the total number of peer reviewers:

Every article sent to the editorial board will be selected by checking compatibility with the theme of the conference. Then, this is sent to two peer reviewers (two peer reviewers for one paper). The type of peer review process is double-blind with 28 peer reviewers involved. The peer reviewers selected are experts in their fields (Geodesy, Geomatic, and Land Administration) in accordance with the field of the article. Each peer reviewer will check the contents of the article and then provide an assessment and comment. Peer review includes: objectives, methodology, data validity, Literature review, Study effort, Clarity analysis, Validity of conclusions and usefulness. Each peer reviewer will give a score on each sub-check so that it can be concluded that the article was accepted or rejected. If one of the two peer reviewers suggests rejecting the article, this will be sent to the third peer reviewer. But, if all the peer-reviewers suggest rejecting the article, the editorial team will reject it as well. After the peer review process, the article will be returned to the author for revision in accordance with comments from the peer reviewer. Then the results of the revision will be sent back to the peer reviewer. After both peer reviewers approve the revision results, the paper is ready for layouting.

- All the editors have taken all mandatory steps to ensure the quality of the manuscripts they publish, and their decision to accept or reject a manuscript for publication has been based only on the quality of the produced work.

Conference full title: The 1st International Conference on Geodesy, Geomatics, and Land Administration 2019

Date and place: July 24th -25th, 2019, Shantika Premire Hotel Semarang Jl. Pandanaran No. 116-120 Semarang, 50241 Indonesia

Chief Academic Editor Name: Dr Yudo Prasetyo, ST., MT.

Knowledge E Publication Ethics and Publication Malpractice Statement

Knowledge E makes every effort to ensure high quality scholarship in all published articles and conference papers on the KnE Publishing Platform. The platform exists in order to share best practices and accelerate the advance of academic research from regions all over the world. In order to achieve this goal, we need to instill confidence in our readers.

Peer Review

Each conference whose content is published on the KnE Publishing Platform has undergone academic peer review prior to submission. Knowledge E checks each submitted paper against a set of criteria to ensure adherence to aims & scope, prevent ethical or legal concerns before agreeing to publish.

Plagiarism

Knowledge E verifies the originality of every submitted conference paper submitted using Similarity Check <https://www.crossref.org/services/similarity-check/> (powered by iThenticate) to check submissions against previous publications. There is no strict limit or proportion of plagiarized content acceptable however, in cases where manuscripts are submitted for publishing on the KnE Publishing Platform in which the Similarity Check detects more than 20% similarity then Knowledge E editorial staff ask the academic editor for an explanation and a suitable solution is found. The solution is usually either a re-submission or removal of the paper.

Committee on Publication Ethics (COPE)

Knowledge E adheres the policies of the Committee on Publication Ethics (COPE, <https://publicationethics.org/>), which is a charity registered in the UK. It is concerned with the integrity of peer-reviewed publications in science, particularly biomedicine.

International Committee of Medical Journal Editors (ICMJE)

Where relevant, Knowledge E adheres to the policies of the International Committee of Medical Journal Editors (ICMJE), including those that cover overlapping publications.
