

Statement of Peer review

In submitting conference proceedings to KnE publishing, the conference editors confirm the following:

- They adhere to Knowledge E Policy on Publication Ethics and Publication Malpractice Statement
- All submitted conference papers have passed a peer review process conducted by the Chief Academic Editor of the conference
- Please provide a description of your conference peer review process, type (single-blind, double-blind, etc.), and state the total number of peer reviewers:

-----All papers submitted to the Conference ICEUBI were reviewed based on a double-blind review process. Each paper was revised by two reviewers with recognized expertise in the corresponding scientific field, and chosen from an international scientific council constituted by 114 researchers from 20 different countries.

The parameters under analysis in the revisions included: Research methodology, Accuracy of the title in describing the paper content, Justification of the conclusions; Abstract accuracy in summarizing the paper content; Analysis and discussion of results; Results as the product of proposed methodology; Objectives clearly presented; Contribution to the field, Innovation and quality; References enough and up to date; Assumptions and analysis suitable.-----

- All the editors have taken all mandatory steps to ensure the quality of the manuscripts they publish, and their decision to accept or reject a manuscript for publication has been based only on the quality of the produced work.

Conference full title: Proceedings of the International Congress on Engineering – Engineering for Evolution, ICEUBI 2019.

Date and place: 27–29 November 2019, Universidade da Beira Interior, Portugal

Chief Academic Editor Name: Jorge Miguel Reis Silva

Co-Chief Academic Editor Name: Maria do Rosário Alves Calado

Knowledge E Publication Ethics and Publication Malpractice Statement

Knowledge E makes every effort to ensure high quality scholarship in all published articles and conference papers on the KnE Publishing Platform. The platform exists in order to share best practices and accelerate the advance of academic research from regions all over the world. In order to achieve this goal, we need to instill confidence in our readers.

Peer Review

Each conference whose content is published on the KnE Publishing Platform has undergone academic peer review prior to submission. Knowledge E checks each submitted paper against a set of criteria to ensure adherence to aims & scope, prevent ethical or legal concerns before agreeing to publish.

Plagiarism

Knowledge E verifies the originality of every submitted conference paper submitted using Similarity Check <https://www.crossref.org/services/similarity-check/> (powered by iThenticate) to check submissions against previous publications. There is no strict limit or proportion of plagiarized content acceptable however, in cases where manuscripts are submitted for publishing on the KnE Publishing Platform in which the Similarity Check detects more than 20% similarity then Knowledge E editorial staff ask the academic editor for an explanation and a suitable solution is found. The solution is usually either a re-submission or removal of the paper.

Committee on Publication Ethics (COPE)

Knowledge E adheres the policies of the Committee on Publication Ethics (COPE, <https://publicationethics.org/>), which is a charity registered in the UK. It is concerned with the integrity of peer-reviewed publications in science, particularly biomedicine.
