

Upcoming Meeting

The 6th annual conference of the Saudi Spine Society, Jeddah, Saudi Arabia

Mahdi Bassi, MD, FRCSC

President, 6th Annual Saudi Spine Society Conference Jeddah, Saudi Arabia

I would like to welcome you to the 6th Annual Conference of the Saudi Spine Society (SSS), promoting Excellence in Multidisciplinary Spine Care at Hilton hotel in Jeddah, Saudi Arabia, on December 8th–10th, 2022.

I am especially delighted to welcome colleagues and guests from outside Jeddah, particularly those outside Saudi Arabia and traveling to join us in person.

It is an honor for me to chair the 6th annual conference of SSS with colleagues, Dr. Ahmed Alturkistani, the chairman of SSS and consultant spine surgeon at King Faisal Hospital and Research center, Jeddah; Dr. Khaled Baterji, the chairman of the organizing committee, consultant spine surgeon and the CEO of Saudi German Hospital; and Dr. Fahd Abduljabbar, the chairman of the scientific committee, associate professor of orthopedics and spine surgeon from King Abdulaziz University, Jeddah.

This conference will be held in person after two years of virtual meetings following the COVID-19 pandemic restricted policies. This year, we plan to use virtual and in-person attending systems for all the audiences from inside and outside Saudi Arabia.

Our aim at this conference is to give the opportunity to professionals from around the world to interact with each other and exchange their experiences. As part of the SSS annual meeting legacy, we have invited several international and regional spine associations to enrich the scientific program and provide opportunities for inclusiveness and diversity at our conference. The conference is a three full-day program of unique scientific interactions for everyone to cover most of the challenging topics and issues related to spine ailments from a multidisciplinary perspective. It includes abstract sessions for podium and poster presentations in addition to a keynote presentation from internationally renowned scientists and researchers in the field, with unique workshops targeting various disciplines.

We have selected highly skilled and professional speakers from all over the world to exchange their expertise and knowledge with everyone.

This conference will run with many topics in parallel rooms to cover all the specialties of our target audience, including orthopedic, neurosurgery, neurology, intervention radiology, physiotherapy, anesthesia, pain service, rehabilitation, nursing,

technicians, and others.

The best research will be presented with the best papers award attributed to the winners after reviewing the papers by the scientific conference committee.

We assure you of an unforgettable experience at this conference and the social event in Jeddah, the Bride of the Red Sea.

Finally, we look forward to having your submitted abstracts and welcoming you soon.
